

M/Y
Pershing 90 'Z2'

Pershing 90 combines remarkable size with perfect seaworthiness, speed with comfort, and space optimization with careful attention to detail and accessories, one of the main qualities that distinguish the Pershing range.

Z2 was constructed in the year 2006 and was refurbished in 2017. She is designed by Fulvio Di Simoni and she has the look and character of a mega yacht. The interiors are all remarkably high and spacious. The upper salon is a single, large open space, whereas there is a clear division between the night area in the bows, the roomy galley and the crew quarters, at the stern.

Her shape and lines are aggressive and captivating and its interiors are remarkable both for its size and its exquisite elegance.

EXTERIOR SPACES-COCKPIT

The luxurious exterior spaces are ideal for lounging, lunch or dinner. The open spaces can entertain you all throughout the day or night and we find it hard to believe that you would ever want to get off board.

With three different sitting areas there is enough space for everyone to get together without compromising in the case that some of you want to just relax and enjoy the surroundings, the sea and the sun.

The fun on board is not limited to lounging though. Z2 is equipped with a Jet Ski, inflatable towable tube, snorkelling equipment and a seabob, all available for you as to ensure you will have the best of times while on-board.

We do believe that after a full day of fun and exploring, enjoying a late night drink on deck surrounded by the ambiance of the sea and the summer night sky is one of the most amazing experiences you could gift yourselves with.

INTERIOR MAIN SALON

Thankfully the spacious areas are not only exterior but interior as well. An open concept living room / dining area gives the interior a feeling of never-ending flow. Once on board you will have the feeling of being in one of the most luxurious spaces you have ever stayed with the added bonus that it can take you anywhere you want.

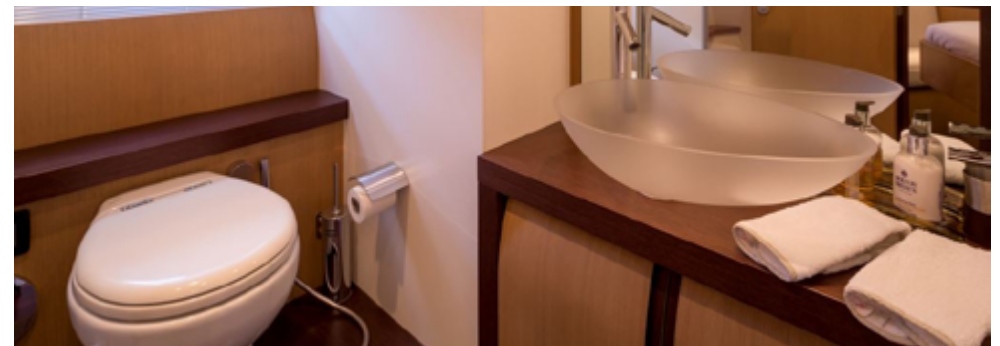

Should you wish for a refuge from the hot summer weather, Z2 has fully air-conditioned interior spaces that could be the sweet oasis you are looking for either relaxing indoors and catching your favourite show/ game on the available smart tv or catching up on those e-mails you have been avoiding all day.

INTERIOR VIP ROOM

When it comes to the bedrooms you will find yourselves not comprising in regards to the available space, amenities or privacy as they are fully separated from those of the crew.

Z2 has four cabins available for its guests, a master bedroom a VIP room and two cabins with two single beds each. Every room comes with enough space for its guests to enjoy and relax during their stay. Also all cabins are equipped with a smart tv, air-conditioning, enough room for storage and their own private bathroom.

INTERIOR MASTER BEDROOM

INTERIOR GUEST ROOM A

INTERIOR GUEST ROOM B

A yacht like Z2 could not come without its dedicated crew. There is a staff of 4 amazing professionals that will take care of you.

CAPTAIN STAVROS TSANGAIOS

Cpt Stavros graduated from the Merchant Marine Academy of Hydra and pursued a career in shipping from a young age.

Being himself a member of a seafaring family, Cpt Stavros has been nurtured since his early years in the nautical element.

His love for the sea got him engaged in the yachting industry where he acquired his great experience. He has great knowledge of the hidden gems of Greek islands, and he is constantly seeking to discover new ones. Captain Stavros will ensure a safe and memorable cruise for his guests.

STEWARDESS ANNALIZA IGLE

Annaliza is 44years old and was born in Philippines. She moved into Greece during her youth and in the superyacht industry in 2016. Since then, she is having a proved and successful record as steward on superyachts.

Her pleasant character, passion and professionalism, guarantees a superior hospitality for each guest.

CHEF
KYRIAKOS DRAKOULARAKIS

Kyriakos is 47 years old with a real passion for his job! Being a chef for over 25 years now, he can successfully present fusion style meals of international cuisine but also amazing Greek traditional dishes. He is very organized in his galley, and he loves putting his personal touch in the dishes he prepares for the guests, combining quality and taste.

DECK HAND
PANAGIOTIS

Panagiotis is the heart of safety and water sport activities on board. He will ensure that all yacht toys will be imminently available for his guests and will be handled with safety. With his pleasant and professional attitude Panagiotis will interact with guests in a professional and discreet way.
